

## PLANET RATING SUBSCRIPTION SERVICE 2009

The **Planet Rating Subscription Service** provides access to over 300 completed ratings in 60 countries written in 1 of our 5 working languages (English, French, Spanish, Portuguese and Arabic) and about **90 new ratings per year**, including 70 GIRAFE Ratings and 20 Social Performance Ratings. For the GIRAFE Ratings, 35% are expected to be investment grade (i.e. grades B and above) and an additional 50% are expected to be speculative investment grade (i.e. grades C- through B-).

- GIRAFE Ratings provide an opinion of the operational and financial strength and **long term sustainability** of rated MFIs.
- Our social performance ratings evaluate MFIs' social performance vs. stated goals.
- Our benchmarking sections allow investors to compare MFIs in a convenient and consistent way.
- All GIRAFE Ratings include an **outlook section** that summarize Planet Rating's view of the future directional trend of a rating (Positive, Stable, Negative, Uncertain); a rating outlook recognizes any positive or negative rating pressure and highlights situations where a rating might be vulnerable to change over the 1-year validity period.

*If analyzing MFI risk is a part of your job, Planet Rating's Subscription Service will save you time and effort. You will never miss a rating!*
